TIME MANAGER

EPITECH

OLD TIME MANAGEMNT

1991

TIME IS MONEY

Benjamin Franklin

With our intention to have the newest progress and technology .Today we have the possibility to change this old time management.

For the employee or the management the best things in the enterprise are to have a simplistic solution to work.

A facility solution for our computer, our instrument for abatement work or in wheat fields. For all this argument, it's time to introduce the new software of Epitech the Time Management.
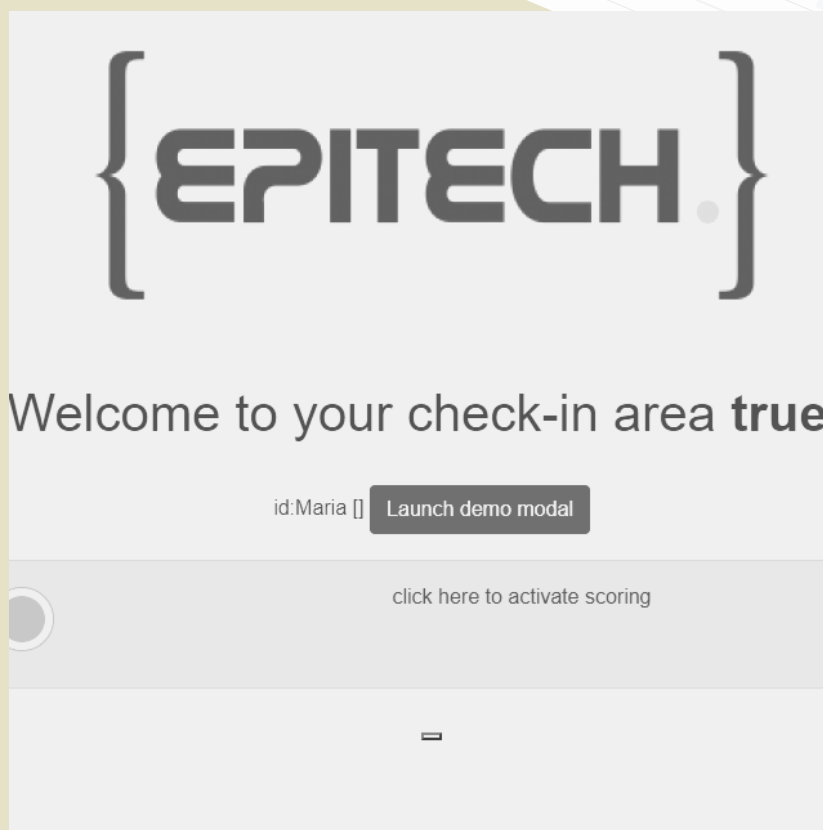

THE NEW TIME MANAGEMENT

Epitech product

The new Time Manager is a new software than can measure your time in work. When you are in the office or working at home, clock out your time. With an easier interface and soft management, Time Manager is an essential tool for all companies.

WE ANSWER YOUR QUESTION

Listening to all your plain we adjust some tools of our application.

The different of time off work in the night and in the office have be include. A table representation with a new column with data of your extra work time has been included. This functionality helps administration for count night and extra hours.

Also, when an employee forgot to clock out it's not a problem. The software gives the possibility of an administrative or manager account to register the default.
